The Warranty Group Participates in National Take Our Daughters and Sons to Work Day

CHICAGO, April 30, 2010 – The Warranty Group, Inc. announced its successful participation in National Take Our Daughters and Sons to Work Day, held on April 22, 2010. The Warranty Group welcomed over seventy-five children to their corporate headquarters for this nationally celebrated event. With the support of over fifty volunteers, the children participated in numerous activities throughout this very busy and educational day.

With a full day of educational activities planned, the children, ages 8 to 17, were exposed to myriad job skills and career preparedness activities such as the importance of interview skills and networking. The older children worked within teams to create product concepts and advertising campaigns while others participated in claims administration and customer service training. All had the opportunity to spend time with their parents, learning about their specific contributions to the success of company.

As this event coincided with Earth Day, each child had the opportunity to complete a Green Pledge to share with their parents, highlighting the importance of consumption reduction, recycling and how to help their families make greener choices every day. The Warranty Group is proud to participate in this important day.

The Warranty Group's Global Headquarters is located in the Chicago Loop, and its leadership and employees are active in a wide range of community and philanthropic endeavors.
